

## Architectural Handrail Bracket

AW750-grp

The **Alexander and Wilks Architectural Handrail Bracket** has the outstanding quality expected from the British brand, Alexander and Wilks! It is a heavy-duty, architectural quality handrail bracket, created from **solid brass**.

They are finished in a range of hardwearing and stylish finishes; antique brass, dark bronze, lacquered polished brass, polished or satin chrome and polished or satin nickel. So, no matter your interior style, we have the right finish to match or complement your interior design to ensure stylish and complementary consistency on all of your accessories, fittings and fixings throughout your property.

The **architectural handrail bracket** also has five countersunk holes to provide quick and easy yet sturdy and secure fixing to ensure your handrails produce easy, comfortable and trustworthy safety for all users, especially in high-use commercial areas.
