

Hanover Knurled Circular Cupboard Knob

AW802-grp

The brand new **Alexander & Wilks Hanover Knurled Circular Cupboard Knob** features a diamond knurled pattern, part of a wider collection of **industrial-inspired** Cabinet furniture. The knob features a disc shape with a knurled edge upon a short cylinder stem and is part of a wider cabinet range featuring a hammered top version perfect for mixing and matching throughout the home to create a cohesive design theme.

During the Industrial Revolution, knurled designs were popular for their tactile grip and are now fashionable for use in **Kitchens** and on **Cabinets**.

Alexander and Wilks have a collection of knurled silhouettes, from T-Bar Fountain Knob to Pull Handles to Cabinet Knobs.
