

Knurled Thumbturn and Release

AW790-grp

The **Alexander and Wilks** knurled thumbturn and release features a **modern** diamond-cut knurled pattern on the thumbturn set against a **smooth round rose**, with a coin release on the opposite side to quickly and easily open doors in an emergency.

This contemporary **privacy** thumbturn is created from a **base of solid brass** and is available in a range of finishes: Antique Brass, Satin Brass PVD, Polished Nickel PVD, and Dark Bronze PVD.

The **Knurled collection** included door handles on rose, cupboard knobs and pulls handles and door stops for a fully coordinated and complementary set to use around the entire property. The designs are inspired by the legacy of the British Royal Airforces aircraft.
