

Wall Mounted Cylinder Door Stop - Satin Stainless Steel

AW610SSS

The **Stainless Steel Wall Mounted Cylinder Doorstop** has a simple and traditional cylindrical design that has been created from stainless steel for a **robust** and hard-wearing door stop that is also economical.

Available in a fresh satin stainless steel finish to complement contemporary homes, apartments and office buildings.

The end of the doorstop has a **black rubber stopper** to avoid markings and indentations on doors.

Alexander & Wilks represents the very best of **architectural hardware** and ironmongery.
