

Reeded Thumbturn and Release

AW792-grp

The **Alexander and Wilks** reeded thumbturn and release feature a **modern** linear-cut reeded pattern on the thumbturn set against a smooth round rose, with a **coin release** on the opposite side to quickly and easily open doors in an emergency.

This contemporary privacy thumbturn is created from a **base of solid brass** and is available in a range of finishes: Antique Brass, Satin Brass PVD, Polished Nickel PVD, and Dark Bronze PVD.

The **Reeded collection** includes escutcheons, thumbturns and matching door handles on rose and door stops for a fully coordinated and complementary set to use around the entire property. The designs are inspired by the legacy of the British Royal Airforces aircraft.
