

Standard Profile Concealed Fix Escutcheon

AW391

These **Alexander and Wilks** Escutcheons are exquisitely crafted solid brass escutcheons in **standard lock profiles** to be used with standard UK locks.

They have a **modern circular shape**, with **concealed fixings** for a clean, high-end finishing touch on door fronts. Available in warm and tactile antique brass, classic Italian brass, a fresh and on-trend satin brass which is available with or without a PVD coating, modern stainless dark bronze which is also available with or without a PVD coating, or a fresh and contemporary stainless PVD polished nickel.

Alexander & Wilks represents the very best of **architectural hardware** and ironmongery.
