

## Hurricane Plain Lever on Round Rose - Pair

AW201-grp

The **Hurricane door handle** features a **modern** plain barrel lever, against a **square silhouette**, finished with a plain round rose. This **contemporary** lever door handle contrasts square and cylindrical shapes, creating a bold yet uncomplicated statement. The simple design is inspired by the legacy of the **Hurricane aircraft**. The Hurricane was built with the "strength of a battleship", designed with power and reliability in mind.
