

## Brunel Knurled Cupboard Knob

AW800-grp

The **Alexander and Wilks Brunel Knurled Cupboard Knob** features a beautiful diamond knurled design, nodding to Britain's industrial heritage. **Knurling** handles have their roots in the industrial age, where knurling was used to create texture, improving grip and giving the cylindrical knobs a tactile feel. Now, knurling is fashionable for its look, but the practicality provided is an amazing bonus.

The Brunel collection is all created from **solid brass** and comes in a range of **finishes**; Antique Brass, Satin Brass PVD, Satin Nickel PVD, Polished Nickel PVD and Dark Bronze PVD.
